

# Lining Board

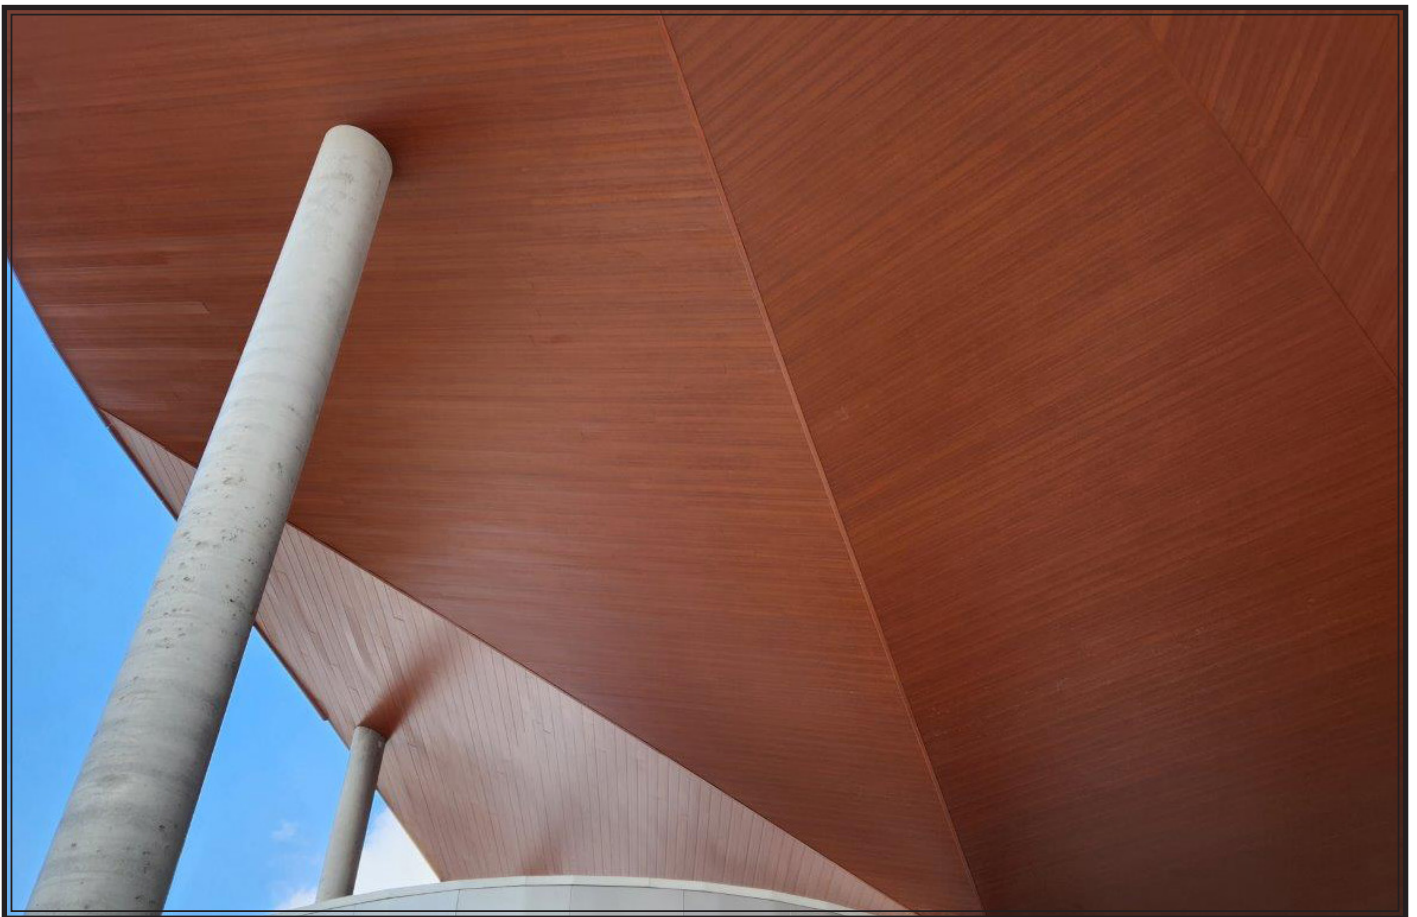

The AliWood Lining Board system offers an attractive yet economical, non-combustible timber finished aluminium soffit or ceiling option that looks like actual timber.

AliWood Lining Boards are quick and easy to install, hence providing the end-users with a hassle free soffit or ceiling option, each board has a 140mm cover and requires fixings at only 600mm centres.

The system is complete with various trims and flashings and is designed to be used in both commercial and residential situations.

Benefits of using AliWood Lining Board are that they deliver a natural, stylish and clean look which ticks all the boxes of compliance regarding non-combustibility. This architectural timber finish aluminium Lining Board system is ideal but not limited to balconies, eaves, lobbies, reception areas & passageways... anywhere you would use timber in a fire prone area.
